PROFESSIONAL EXPERIENCE

Software Engineer - Retain Health, Inc.

Aug 2021 - Present · Boston, MA (Remote) · Part-time contract

Healthcare platform serving 30,000+ users, focused on Alzheimer's prevention through personalized lifestyle interventions.

- Core contributor to RetainYourBrain (retainyourbrain.com), building and maintaining production features since August 2021 across AngularJS, Next.js, TypeScript, Node.js/Express, and MySQL.
- Built a dynamic form engine with complex conditional logic that powers personalized routines and topic recommendations.
- Worked extensively with AWS and React Native over the past year on the platform's cloud and mobile applications.
- Created reusable frontend services that reduce redundant API calls and improve performance.
- Introduced automated testing with Jest, Cypress, Mocha, Supertest, Karma, and Protractor, plus GA4/GTM analytics, and collaborated with QA and UX/UI teams on production releases.

Tech: *AngularJS, Next.js, TypeScript, Node.js, Express.js, MySQL, AWS, React Native, Jest*

Full-Stack & AI Engineer / Team Lead - Wequity

Oct 2025 - May 2026 · Brussels, Belgium (Remote) · Part-time contract

Legal tech company building NORA, an AI-powered document processing platform for lawyers and notaries in Belgium and the Netherlands.

- Served as team lead during an eight-month contract: reviewed pull requests and owned deployments.
- Developed Python/FastAPI backend services and React frontend features, using Supabase for application data and storage.
- Built a RAG knowledge base that answers questions over uploaded legal documents with source citations.
- Developed Smart Processing workflows that learn document transformation patterns from example pairs using LLM APIs and DSPy.
- Integrated Google Vision API OCR to extract text from scanned and image-based PDFs for downstream processing.
- Designed asynchronous processing with Google Cloud Tasks and Pub/Sub, and integrated DeepL translation for English, French, and Dutch documents.

Tech: *Python, FastAPI, React, Supabase, GCP (Vertex AI, Vision API, Cloud Tasks, Pub/Sub), LLM APIs, DSPy, DeepL*
